

RAILWAY ORGANIZATION.

President Arthur Speaks of Mr. Debs' Plans.

THE AUSTRIAN ARCHDUKE.

Utah Potatoes in Demand in the East.

Dre Shipments Increased—Sheep Shipments—Trainmen's Day at the Fair—San Diego Railway Scheme—The New Southern Time.

Speaking of Eugene V. Debs, president of the American Railway union, who recently organized a branch of that association in Salt Lake city, Chief Arthur, of the Brotherhood of Locomotive Engineers, last week said:

"Mr. Debs and I have disagreed as to the relative merits of our various plans for bringing success to railroad organizations." Mr. Arthur remarked, "but I had no thought that there was anything more than the mere holding of our opinions until I heard from him on his travels and through his magazine. Mr. Debs has an idea that close federation will bring everything desired to railroad employees, his theory being that the consolidation of all employees without regard to class distinctions would do this; on the other hand I maintain the virtue of an autonomy of the distinct organizations, and if federation is desirable at any time it may be secured on a good temporary basis. I do not believe that the classes will harmonize. Mr. Debs being a young and ambitious man is desirous, of course, of advancing his cause, and he does not hesitate to attack the older individual organizations in this pursuit. He has said some very unkind things about me, but I have always maintained a silence on the subject, and refuse to embroil myself with the young man."

Of Mr. Howard, who is with President Debs, Chief Arthur said:

"Howard is more a conductor than an engineer. He was never a delegate to an engineers' convention. He was, however, the grand executive of the Conductors' Brotherhood before that body was consolidated with the Order of Railroad Conductors. When there were two conductors' fraternities in existence I did not hesitate to advise their consolidation. I spoke to Howard about it, and outlined a plan to him. He was then a firm friend of mine. The consolidation followed afterward on exactly the plan outlined by me, and the result was that Howard was without a job. He then allied himself with the Debs scheme and is now actively prosecuting it with frequent side allusions to myself. You can readily see the animus of his own connection with the order as well as the reasons for his attacks upon myself."

A NOBLE GUEST.

The Her Presumptive to Austria's Throne Is Coming.

The Union Pacific is entertaining a royal guest on its line in the best of style, and will have him come to Salt Lake and see what advantages we have in this valley. Of this noble scion of a noble house, a writer in *Town Topics* says:

His Royal Highness Prince Ferdinand d'Este, duke of Austria, heir presumptive to the throne of Austria, and the latest royal foreigner to arrive in America with the expectation of being made a social lion, has arrived at a particularly inopportune time to succeed. He has, no doubt, heard of the reception given the Maharajah, the Spanish duke, and other scions of nobility, and accordingly

packed up his royal purple wardrobe and took passage on the steamship Empress of China, which landed him at Victoria. He, of course, started at once across the continent, but before he gets to the home of American fashion I fear he will find he has arrived between two seasons, and that those he expected to entertain him are themselves taking a vacation from arduous social duties. The visitor is really of more importance from a social point of view than any of the titled foreigners who have preceded him, and I imagine there would be far more pleasure in entertaining him than a Maharajah who considers every woman a possible addition to his string of wives. But since a majority of summer homes have been closed, and city houses have not yet been opened, his royal highness will probably have to be content with the hospitality of a hotel and occasional visits to the metropolitan clubs.

A Gratifying Change.

On Monday the down train from Salt Lake to Frisco arrived in the afternoon instead of at the ghostly hour of midnight, and for the present at least we will have a day service each way.

This is a gratifying change, and whenever it will justify the Union Pacific company to do so, it will be still more gratifying to have our daily train service restored.

We are not, however, in the ranks of the chronic kickers, who expect a railroad company to run at a loss, simply to accommodate the people. Like all other enterprises, a railroad should pay reasonable profits to its owners.

Any present loss to the Union Pacific Railroad company would impair its ability as to future service and still longer defer the extension of the road south from Milford.

Utah Potatoes Popular.

Three cars of Utah potatoes were shipped on Saturday to Chicago over the Union Pacific by a prominent commission house, while shipments in great quantities are being made from Ogden to various points in Texas and other states. Shippers state that Utah potatoes are quite popular in all those regions where crops are short this year. It seems that the people find they are of good quality and quite suitable in many ways.

Another Scheme Abandoned.

SAN DIEGO, Cal., Sept. 18.—Work has been stopped on the San Diego & Phoenix railroad in pursuance of an order from the president. Inability to raise funds for the enterprise by subscription and other means is given as the cause. Three and a half miles of track had been constructed and the road had been graded for a considerable distance further.

Wisconsin Central Surrendered.

MILWAUKEE, Sept. 18.—This morning the receivers of the Northern Pacific appeared in court and agreed to surrender the Wisconsin Central lines to the old management in view of the loss sustained by the operation of the line and the poor prospect of improvement. The details of the matter are being argued.

Pacific Express Loss.

DENVER, Col., Sept. 18.—The report sent out from here this morning to the effect that the Pacific Express company had been robbed of a large amount, grew out of the fact that the company had a money order book stolen Saturday. Payment was stopped on all the numbers in it. The company will lose nothing.

Increased Ore Shipments.

A sign of good times comes in the guise of information that shipments of ore are being made now in much larger quantities than for some time. The railroads feel greatly encouraged on this account.

Stock Shipments.

On the 25th inst. William Kirke & Co.

will ship seven double-decked cars of sheep to Chicago from Wasatch. On the same day Smith Bros. will ship five cars from Soda Springs to Chicago. Both will go over the Union Pacific.

Coupling Pins.

The special car of the First Presidency is expected to arrive in the city today.

The competition for freight and passenger business in Sanpete is warm between the rival roads, but there has been no cutting of rates as yet and there may not be, as neither side seems inclined to start the ball a-rolling. The Western of course, still has the cream of the business, though its rival is doing well considering the times.

The Brotherhood of Railway Trainmen will celebrate October 13 as Trainmen's day at the World's fair. John Flailayson of Mount Carroll, Ill., 55 years old, and J. S. Davidson of Stellarton, Nova Scotia, 91 years old, said to be the oldest conductor and locomotive engineer, respectively in the world, will be present. These two ran a train over fifty years ago pulled by Sampson, the locomotive now on exhibition at the World's fair. It is the intention of the trainmen to have Sampson steamed up and let Flailayson and Davidson take one more ride, though of necessity a short one, on their old-time locomotive. Preparations are making for the entertainment of 15,000 trainmen.

An Undisputed Test of Merit.

A medicine that has been a household remedy for over fifty years and used in that time by more than 150,000,000 persons must have great merit. Such a medicine is found in BRANDRETH'S PILLS.

This fact demonstrates the value of these pills better than any statement of the proprietors. It will be observed that the dose required to cure is small. One or two pills taken every night for ten or twenty days will cure dyspepsia, indigestion, rheumatism, liver complaint, biliousness, or any disease arising from an impure state of the blood.

BRANDRETH'S PILLS are purely vegetable, absolutely harmless, and safe to take at any time.

Sold in every drug and medicine store, either plain or sugar coated.

Ballard's Horehound Syrup.

We guarantee this to be the best cough syrup manufactured in the whole wide world. This is saying a great deal, but it is true. For consumption, coughs, croup, whooping cough, pneumonia, bronchitis, asthma, whooping cough, and all diseases of the throat and lungs, we positively guarantee Ballard's Horehound Syrup to be without an equal on the whole face of the globe. In support of this statement we refer to every individual who has ever used it, and to every druggist who has ever sold it. Such evidence is indisputable. Sold by Z. C. M. I. Drug department.

Notice to Dairymen.

All dairymen who have not secured their permits to March, 1894, will please send their names, postoffice address and name and location of dairy to A. S. Kendall, milk inspector, 29 Commercial street, Salt Lake City.

Auction! Auction!

K. A. Andrews, the auctioneer, can be found at 72 South Main street. Parties wishing to dispose of household goods or merchandise can save money by calling on him before selling.

The only musical treats and dancing which people can enjoy on the Great Salt Lake is at beautiful Saltair. Music is rendered every afternoon and evening as long as the weather remains fine by the well known Pedersen-Sims band.

Eucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by A. C. Smith & Co.

UNIVERSITY OF UTAH.

Opened Yesterday with Bright Prospects for Increased Usefulness.

About Two Hundred and Seventy-Five Applications Filed—Hand Book Issued by the School Board.

The University of Utah entered upon its fifty-third year yesterday, with bright prospects for increased usefulness.

About 225 students filed their applications for admission, but this number, of course, does not indicate the total of those who will be enrolled, as the present week will be devoted largely to the examination of new students, while the old ones will come in next week.

The faculty has been increased, and teachers and pupils are alike enthusiastic over the prospect of the year's work in this grand institution of learning.

Educational Notes.

The hand book of ready reference gotten out by our city board of education fills a great need for all those interested in the city schools.

A much less number of Utah students are able this year to attend eastern colleges, owing of course to the financial depression.

There are one hundred and twenty-five students attending the State University of Nevada, fifty-two of whom are new ones. These young men represent the state in the Stanford university.

Nine different cities and towns have figured as the capital of our nation: Philadelphia, (four times), Baltimore, Lancaster, Pa., York, Pa., Princeton, N. J., Annapolis, Md., Trenton, N. J., New York and Washington.

The September *Educator*, which will soon appear, will contain detailed reports of the summer school and institute work of the territory, as well as all general school news of the summer. The *Educator* should be supported by every one interested in education. It is a home made and is deserving of our patronage. In this particular, too, many of our home teachers act in accordance with the maxim, "distance lends enchantment." The present is an era of building up home enterprises, and it should be adhered to in many educational lines as well as commercial.

Arsenic and guanine are dangerous drugs to accumulate in one's system, and it is to be hoped that these poisons, as a remedy for ague, have had their day. Ayer's Ague Cure is a sure antidote for the ague, is perfectly safe to take, and is warranted to cure.

Damaged Lumber

\$10 per thousand at Morrison, Merrill & Co.'s.

A Sound Liver Makes a Well Man.

Are you bilious, constipated or troubled with indigestion, sick headache, bad taste in the mouth, foul breath, coated tongue, dyspepsia, indigestion, hot, dry skin, pain in back and between shoulders, chills and fever, etc.? This form as well as blind, bleeding or protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on parts affected, absorbs tumors, allays itching and effects a permanent cure. 50 cents. Druggists or mail. Circulars free. Dr. Bosanko, Philadelphia, Pa. Sold by Gode-Pitts Drug company, Corner Main and First South.

Mr. J. G. Anderson

Of Scottsdale, Pa., a veteran of the 11th Penn. Vols., says, as a result of war service he

Suffered Every Minute

From liver and kidney troubles, catarrh in the head, rheumatism and distress in his stomach. Everything he ate seemed like lead. Sleep was restless, and in the morning he seemed more tired than when he went to bed. He says:

Hood's Sarsaparilla

and Hood's Pills did me more good than everything else put together. All my disagreeable symptoms have gone. Be sure to get Hood's.

HOOD'S PILLS are the best after-dinner pills. They assist digestion and cure headache.
